March 21st

4:30 Doors Open

5:00 Dinner

7:00 Dance

Important Information Regarding Montana Relay

Did you know that many Montanans who are deaf, hard of hearing, or have speech disabilities can now enjoy the convenience of communicating with family, friends or business contacts by telephone? They can, thanks to the Montana Relay.

Here's how Montana Relay works:

A person who is deaf, hard of hearing, or may have a speech loss, types his/her conversation using a text telephone (TDD/TTY). A specially trained Communications Assistance (CA) relays the message by reading the text message to the hearing person at the other end. The CA then relays the hearing person's spoken words by typing them back to the TDD/TTY user.

Hearing callers who wish to reach people who are deaf, hard of hearing or speech disabled may simply dial 7-1-1 or dial 1-866-253-4090. Text telephone users may also dial 7-1-1 or 1-800-253-4091.

There is no charge for dialing 7-1-1, and all options available to Montana Relay users through existing 800 numbers are available to 7-1-1 users. If you are experiencing trouble dial 7-1-1 to reach the Montana Relay, please call the local telephone company or Montana Relay Customer Service.

Relay service is also available over the Internet. People who are deaf, hard of hearing or speech disabled can simply go to www.hamiltonrelay.com to connect to a CA. Customers may use the same website (www.hamiltonrelay.com) or HamiltonVRS.tv from a videophone to access video relay service, where a certified American Sign Language (ALS) interpreter will relay your signed conversation to the hearing party.

Relay services are also available for people with Speech Disabilities, Speech-to-Speech service lets people with speech disabilities communicate on the telephone by using their own voice, or voice-assisted device, through the help of a specially trained CA by dialing either 7-1-1 or 1-866-225-1866.

Spanish Relay Service is available to Spanish speaking residents of Montana. To place a Spanish relay call, dial 1-800-435-8590.

CapTel™ is ideal for people with some degree of hearing loss. CapTel works like any other telephone with one important addition: it displays every word the caller says throughout the entire conversation. CapTel users can listen to the caller and read the captions on the display window. For information on CapTel, call 1-800-833-8503 V/TTY or email: relay@mt.gov.

All services are available 24 hours a day, seven days a week and enable people to place relay calls between Montana and other locations anywhere in the United States and internationally to English and Spanish speaking persons. By law, each conversation is handled with the strictest confidentiality. There is no charge to access Montana Relay.

To learn more about Montana Relay, visit the website at www.hamiltonrelay.com/states/mt.htm.
