## STORM WATCH FOR FIBER CUSTOMERS

During a power outage, the battery backup will provide the power needed to allow a customer's phone to continue to work for up to 8-24 hours, depending on battery purchased and call volume/length. Once power is restored to the home, the battery will then automatically recharge. If the battery dies before the power is restored or you choose to opt out of a battery backup, you will be unable to make or receive calls until the power is restored.

*What can you do?*

Do more with **Broadband Internet**

Do more streaming, more relaxing, and more saving. Contact us for more details.
