Do I need a surge protector?

Households experience power surges or power fluxes on a daily basis whether it be caused from everyday household appliances kicking on/off or because of weather. Over time, these power surges can damage electronic devices.

ONTs and wireless routers are some of the first things to be affected. Plugging your ONT or router into a surge protector will help protect them.

Having your electronics & appliances plugged into surge protectors could save you from having to replace them because of a little power surge.

If you are having problems connecting to the internet, unplug your ONT and ROUTER from the power source for 20 seconds and wait up to 10 minutes for the system to reboot. If this doesn't fix the issue, make a note of the error message you are receiving, and which lights are on or blinking. This will be the information our tech support will need. You may reach them 24/7 at 406-368-5505, this is a free call.

July Round Up figure of
\$209.74 went to the
Lincoln Senior Center.

Due to customer interest in donating an additional dollar or more to the Round-Up program, we now offer the Round-Up Plus program. If you would like to add more than just the "change" we currently round up, let us know the amount and we will add it to your monthly bill.

Thank you to all who contribute!

988 Dialing and Texting for Suicide Prevention is in Effect!

On July 16th, three-digit to reach the 988 National Suicide Prevention Lifeline and the Veterans Crisis Line went into effect. Those who need help will be able to dial or text 988 to reach a suicide prevention and mental health crisis counselor. Calls and texts to 988 will be directed to the National Suicide Prevention Lifeline at 1-800-273-TALK. Veterans then press 1 to reach the Veterans Crisis Line.
