BroadbandMT awarded its third annual Rural Education Scholarship to Hailey Rasmussen, a third year teacher for the Lincoln Public school, in July at the Lincoln Rodeo.

BroadbandMT's Rural Education Fund was created to help recruit and retain quality educators in rural schools in Montana. Each BroadbandMT member selects a teacher candidate from their rural service area and a final winner is chosen from that pool. The winning teacher is awarded \$1,500, and the scholarship is renewed for two additional years - for a total of \$4,500 over three years. Additionally, LincTel is matching Broadband MT's 2024 stipend for Hailey, in the amount of \$1500.00

Ms. Rasmussen is currently a music teacher who also coaches cross country at Lincoln Public School. She graduated high school from Anaconda then pursued and obtained degrees in music education and music performance simultaneously from the University of Montana. Hailey spent her first year after college studying flute in Cambridge and working in the schools in the Boston area. Although she greatly enjoyed her time in the Boston area it wouldn't take her long to become homesick for small town Montana. In the spring of 2022 she was offered the opportunity to move her newly growing family to Lincoln where she continues to improve the music program with her love and passion for music and teaching. The Lincoln School and community are blessed to have Hailey and many other amazing teachers. Go Lynx!

## Congratulations Hailey

Thank you for all you do for our children and our community.

### STORM WATCH FOR FIBER CUSTOMERS

During a power outage, the battery backup will provide the power needed to allow a customer's corded phone to continue to work for up to 8 hours, depending on the call volume/length. REMINDER: A CORDLESS PHONE WILL NOT WORK IN THE EVENT OF A POWER OUTAGE! Once power is restored to the home, the battery will then automatically recharge. If the battery dies before the power is restored or you choose to opt out of a battery backup, you will be unable to make or receive calls until the power is restored. You can purchase or lease an additional battery backup and your internet will stay active in the event of a power outage.
